

## closure-act(s)

... the act of defining a closure leads naturally to a separation, a distinction, a placing of value on what is important and what is not important ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-agent(s)

... agents that possess this **syntactic autonomy**, rely on the existence of **symbolic memory** and, therefore, possess an element of **dynamic incoherence** with their environment ... – ... in addition to the **dynamic situation** of their predecessors ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-code(s)

... ability to generate such a powerful system of assembly of self-organizing encoded components for the construction of evolving classifying systems, is the one defining characteristic of all known life forms, which somehow produced this code, or **autonomous syntax** for a more efficient situated semiosis with the environment ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-context(s)

... **contextual constraints** ... – ... a whole new dimension for creativity ... – ... a dimension of communication that is only framed by thermodynamic laws but not determined by them ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-form(s)

... ,[a href="@s5-self-student.html](@s5-self-student.html); **formative dynamic(s)** ... – ... structuring processes and structural order .. – ... form is the articulation and realization of a principle of motion and change ... – ... not a mechanics of matter ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-math(s)

`iframe scrolling="yes" width=80`

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-organism(s)

... **self-organization in development** ... – and perhaps in cognition, especially **creative thought** – ... increases the individuality of organisms ... – .. **capacity for adaptivity** ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-reality(s)

... the more stimuli the conceptual system has assimilated, the more of external reality it can capture, thus the greater the potential of the individual to adapt to its environment ... – ... however, accuracy is not the only determinant of what makes a successful worldview ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-reason(s)

... **reason assesses the logical hygiene of belief systems** ... – evolutionary epistemology – ... rationality is an emergent concept ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-self(s)

... **psychological closure(s)** – selfhood emerges slowly from the gradual repetitive intertwining of biological potentials with meaningful experience(s) ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-syntax(s)

... **constructive code** – syntax – ... system-environment selective coupling ... – ... **description-based selected self-organization** ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-system(s)

... **organizational closure** ... – ... self-referential organization of the causal interactions in material systems ... – ... recursive organization of the causal loops that determine the dynamics within or between levels ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-think(s)

... **process metaphysics** ... – ... thinking is a kinetic phenomenon .. – ... it proceeds slowly, haltingly, quickly, sharply, circuitously, ponderously, lightly, sluggishly, broadly, narrowly ... – ... exemplifies the **principle of nature** ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-time(s)

... the nature of **temporal biological closure(s)** is virtually unexplored ... – ... (as is) the relation between **self-organization** and **selection** ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-trace(s)

... a semantic inscription is a material trace or signal whose causal efficacy can be rendered intelligible when construed as resulting from a process of interpretation that is irreducably *conventional* ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-work(s)

... the transformation from external work to internal energy is executed irreversibly ... – ... in a direction from which the organism creates its own **dimension of** ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []

## closure-world(s)

... **identification is a window on a world** ... – conditions for understanding – ... interactive engagement in a social context ...

magic / expert(s) / life(s) / fight(s) / pattern(s) / dynamic(s) []
