preface

part i. digital convergence	1
reading directives	
perspectives	1
essay topics ...	1
1. what is multimedia	3
learning objectives	2
1.1 entertainment and experience	3
entertainment	3
digital experience	4
example(s) - <i>VR for pain relief</i>	6
research directions- <i>the face of cyberspace</i>	8
1.2 technological developments	8
TV or PC	9
example(s) - <i>visible world</i>	10
research directions- <i>technological determinism</i>	13
1.3 multimedia applications	1
example(s) - <i>personal memex</i>	4
new media	15
TV meets the Web	15
mobile multimedia	16
the academic perspective. example(s)	16
- <i>samurai romanesque</i>	1
research directions- <i>the information society</i>	7
questions	18
projects & further reading	20
the artwork	20
	21
2. information spaces	21
learning objectives ..	31
2.1 information and data.	23
	23

logical information spaces	25
example(s) - <i>e-flux</i>	27
research directions- <i>universal interchange</i>	27
2.2 hypermedia	30
classification of hypermedia	30
Dexter Hypertext Reference Model	32
Amsterdam Hypermedia Model ..	33
example(s) - <i>hush</i>	34
research directions- <i>computational models</i>	35
2.3 multimedia authoring ..	35
visualization	36
persuasive technology	37
(re)mediation	38
example(s) - <i>mobius</i> ..	40
research directions- <i>narrative structure</i> ..	41
example(s) - <i>edgecodes</i> ..	43
questions	43
projects & further reading ..	4
the artwork	4
	4
	4
part ii. delivery & presentation ..	4
reading directives ..	7
perspectives ..	4
essay topics	7
	48
3. codecs and standards ..	48
learning objectives	9
3.1 codecs	49
compression methods ..	49
compression standards ..	51
example(s) - <i>gigaport</i> ..	52
research directions- <i>digital video formats</i> ..	52
3.2 standards	53
MPEG-4	55
example(s) - <i>structured audio</i> ..	56
SMIL	62
RM3D - not a standard	62
example(s) - <i>rich internet applications</i> ..	65
research directions- <i>meta standards</i> ..	69
3.3 a multimedia semantic web?	70
Resource Description Framework - the Dublin Core ..	71
research directions- <i>agents everywhere</i> ..	72
questions	7
projects & further reading ..	4
the artwork	7
	7
	78
	78

4.multimedia platforms	79
learning objectives	79
4.1 developments in hardware and software	79
a little bit of history	80
the (programmable) graphics pipeline	81
a simple shader	82
example(s) - <i>impasto</i>	86
research directions - <i>the art of shader programming.</i>	86
4.2 DirectX 9 SDK	87
DirectX 9.0 components	87
Direct3D	88
DirectSound - the <i>drumpad</i> example	88
DirectShow	89
DirectX application development ..	91
example(s) - <i>3D vision</i>	92
research directions- <i>the next generation multimedia platform.</i>	93
4.3 merging video and 3D	94
the Video Mixing Renderer filter	95
the ViP system	96
example(s) - <i>reality of TV news.</i>	98
research directions- <i>augmented reality</i>	99
questions	99
projects & further reading	99
the artwork	100
 part iii. information retrieval	 101
reading directives	101
perspectives	102
essay topics ...	102
 5.information retrieval	 103
learning objectives	103
5.1 scenarios	103
research directions- <i>information retrieval models</i>	105
5.2 images	107
descriptive information	107
similarity-based retrieval	109
example(s) - <i>match of the day.</i>	112
research directions - <i>multimedia repositories.</i>	112
5.3 documents	113
precision and recall	114
frequency tables	114
research directions- <i>user-oriented measures</i>	115
questions	117
projects & further reading	117

the artwork	11
	7
6. content annotation	11
learning objectives ..	9
6.1 audio	119
musical similarity	119
example(s) - <i>napster</i>	121
research directions - <i>musical similarity matching</i>	123
6.2 video	123
video libraries	125
example (s) - <i>video retrieval evaluation</i>	128
research directions- <i>presentation and context</i>	129
6.3 feature extraction	130
anatomy of a feature detector	132
example(s) - <i>modern art: who cares?</i> .	133
research directions- <i>media search</i>	136
questions	136
projects & further reading	138
the artwork	139
	139
7. information system architecture	141
learning objectives	141
7.1 architectural issues	141
research directions- <i>the information retrieval cycle</i>	142
7.2 media abstractions	144
research directions- <i>digital libraries</i> .	146
7.3 networked multimedia	148
virtual object	149
networked virtual environments	150
example(s) - <i>unreal</i>	152
research directions- <i>architectural patterns</i>	153
questions	154
projects & further reading	155
the artwork	155
part iv. applications & tools	15
reading directives	7
perspectives	15
essay topics ...	7
	15
8. virtual environments	15
learning objectives	15
8.1 virtual context	159
research directions- <i>augmented virtuality</i>	159
8.2 navigation by query	162
	163

case study - CWI	164
information in virtual worlds	165
presentation issues	166
research directions- <i>extended user interfaces</i>	167
8.3 intelligent agents	168
multi-user soccer game	169
agents in virtual environments	170
research directions- <i>embodied conversational agents.</i>	174
questions	175
projects & further reading	176
the artwork	176
9. digital content creation	17
learning objectives	7
9.1 visual design	177
perspective(s)	177
deliverable(s)	178
assignment(s)	179
regulation(s)	180
research directions- <i>on creativity</i>	181
9.2 designing the user experience	182
game design	184
affordance - ecology of behavior.	185
usability and fun	186
example(s) - <i>visual sensations</i> ..	188
research directions- <i>engaging with fictional characters</i>	189
9.3 multimedia augmented theatre	190
context - the Odyssee theatre production	192
structuring time - maintaining 'see-through' aesthetics	193
example(s) - <i>pizza boy</i>	195
research directions- <i>computational art</i>	197
questions	197
projects & further reading	198
the artwork	198
10. application development	20
learning objectives	1
10.1 multimedia casus	201
project assignment - <i>present a complex information space</i>	202
project management - <i>roles</i>	203
example(s) - <i>tangible virtual museum</i>	204
research directions- <i>metaphors and interaction style</i>	206
10.2 digital dossier(s)	207
the <i>abramovic dossier</i>	208
navigation - <i>concept graphs</i>	209
presentation - <i>gadgets</i>	209
	210

reconstruction - <i>recreating the installation</i>	21
style issues - <i>how to improve the dossier</i> .	1
example(s) - <i>conservator studio</i>	21
research directions- <i>establishing usability</i> .	1
10.3 representation & interaction	21
content management and data representation	2
integration with the Dublin Core	21
intelligent guidance - I-GUARD	3
example(s) - <i>tower of babel</i> ..	21
research directions- <i>media art</i> .	5
questions	21
projects & further reading	6
the artwork	21
	8
	21
afterthoughts	225
	22
	1
appendix	229
A.acronyms	23
B Web3D - VRMLjX3D .	32
C XML-based multimedia.	33
D a platform for intelligent multimedia	32
E resources, tools and technology	44
F write an essay!	12
	44
	5
references	262
	3
	26
index	272
